

Hi,

We are looking to get a price for production and fitting for a new kitchen using the Harborne handleless shaker style - I believe this is one of the kitchens you offer? This will be for a new extension, so we have a comfortable lead in. We're in Abbeyfield, Killester, Dublin 5.

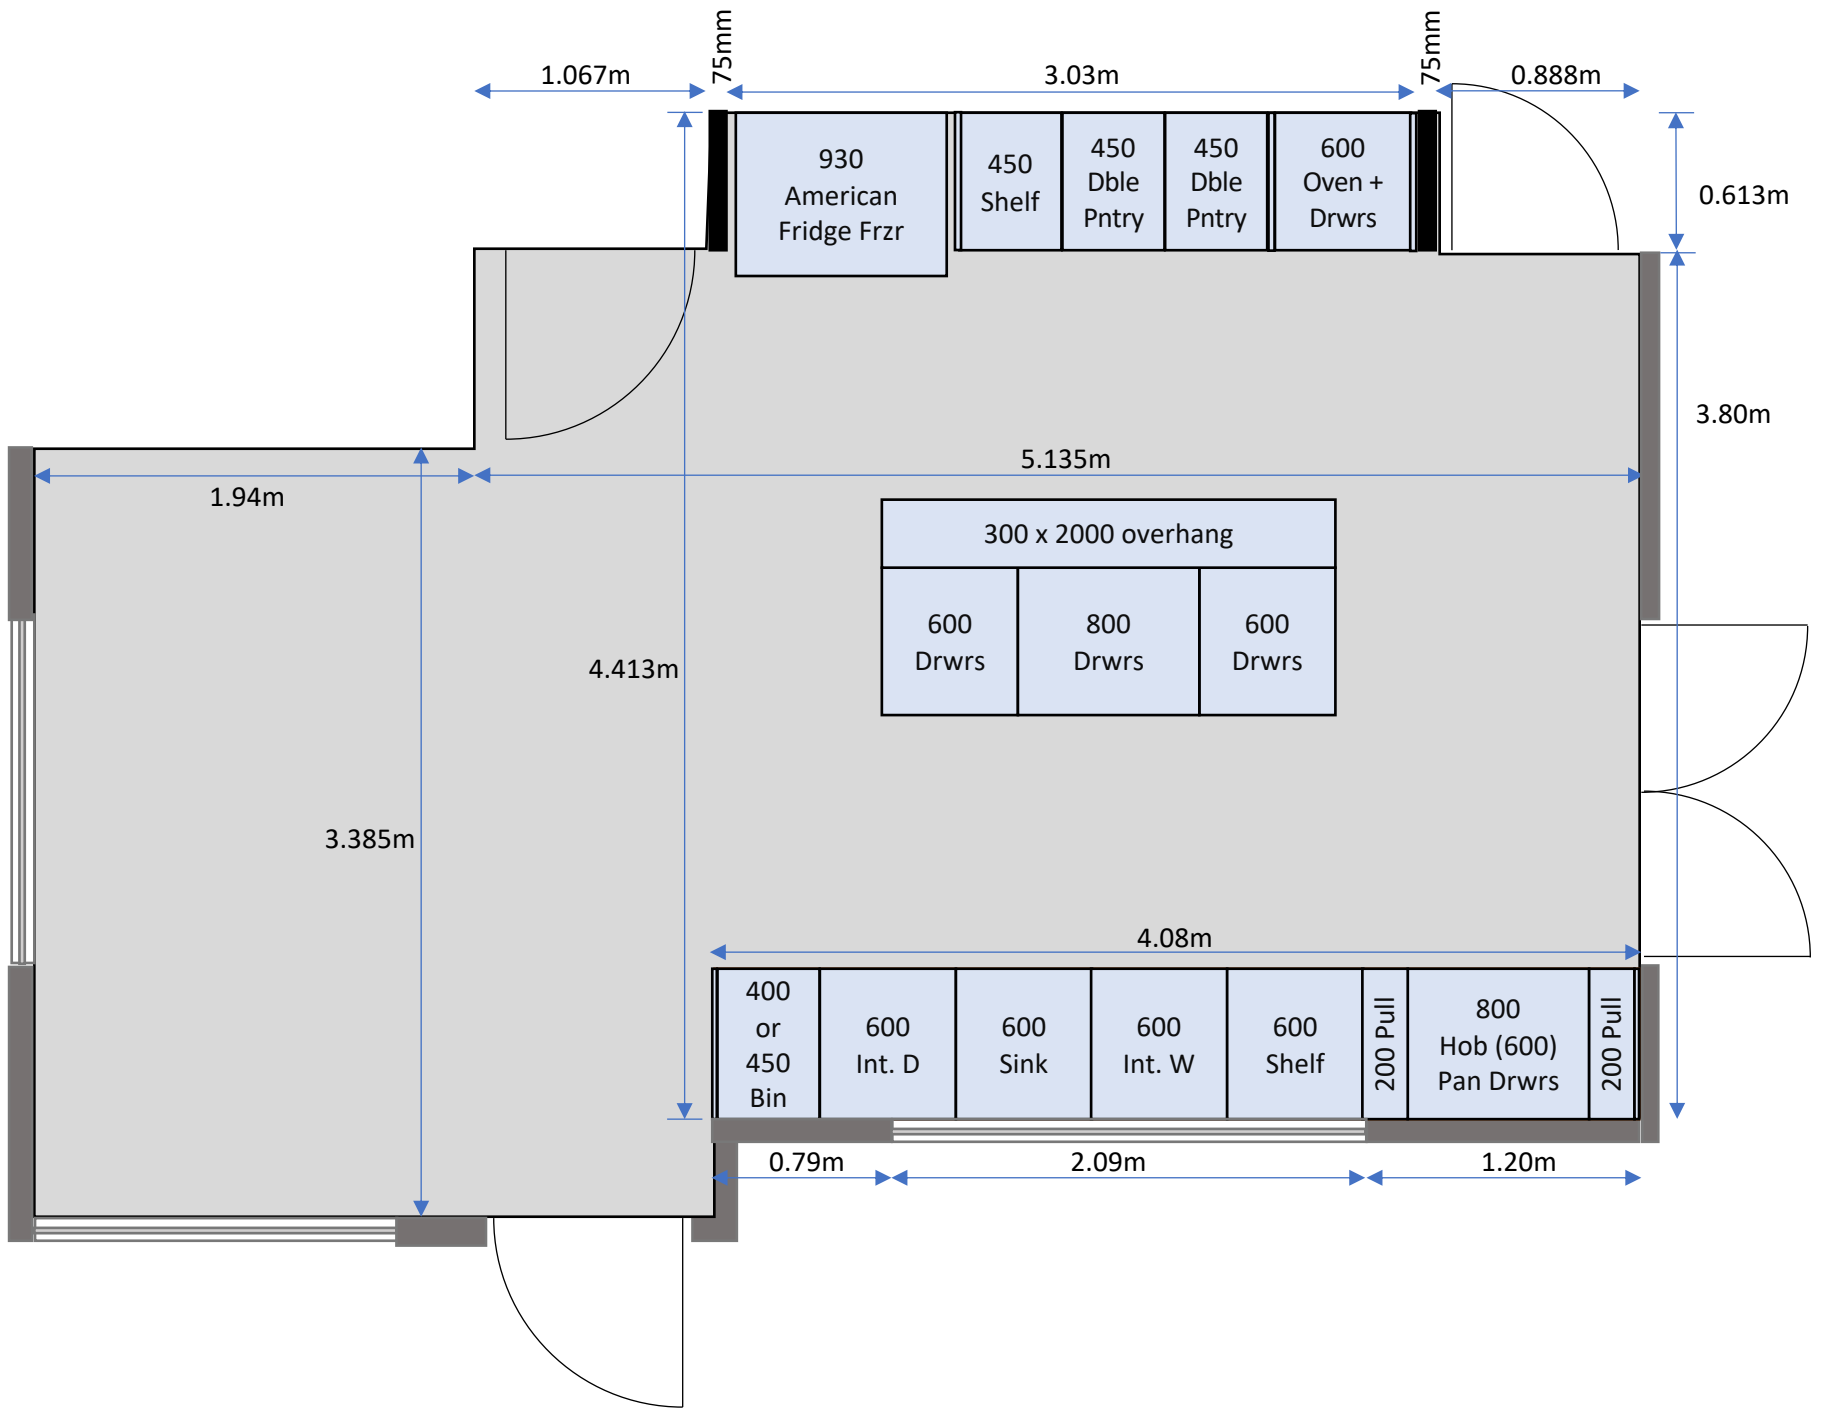

In terms of design, I've attached the section of the architect's plan and this doc includes my own draw up of design, which I hope aligns to the fronts and units available / standard appliance requirements etc. If this looks feasible, I'd be glad if you could draw up a quote and give me details of your lead in / deposit terms etc.

For worktops, we are looking at caesarstone frozen terra and we have a number of appliances we will be reusing (oven, fridge freezer), and are happy to source the remainder ourselves, so a costing excluding worktops and appliances would be perfect.

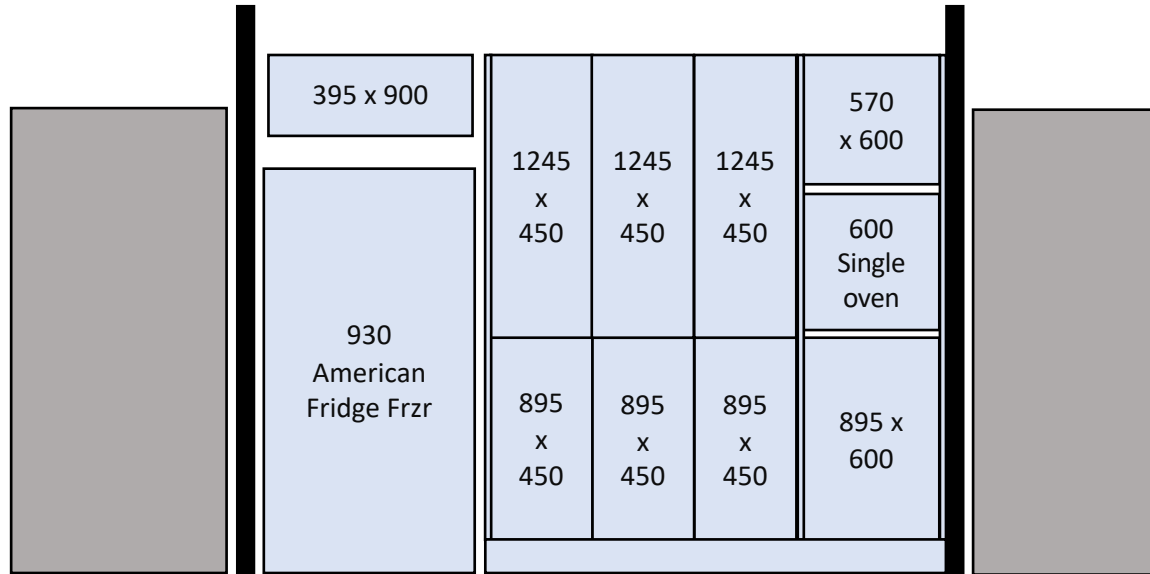

Any queries, please give me a call. My mobile is 0874378937.

Many thanks,

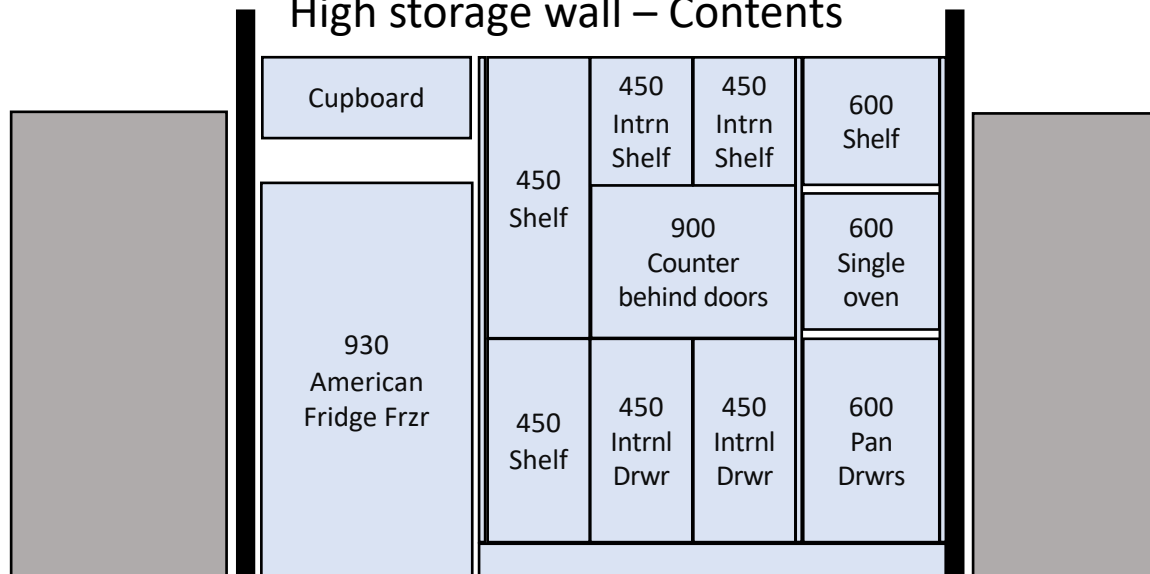

Mary Redfern
